

A scatter plot showing 1000 random points distributed in a 2D space. The x-axis is labeled with binary values 000, 001, 010, 011, 100, 101, 110, and 111. The y-axis is labeled with binary values 000, 001, 010, 011, 100, 101, 110, and 111. A horizontal red line is drawn across the plot at approximately the 010 level on the y-axis. The points are scattered throughout the plot area, with a higher density near the bottom-left corner (000, 000) and a lower density near the top-right corner (111, 111).
